

# NATHÁLIA PINTO DO RÊGO

Software Development Student

## Personal Skills

I developed a strong interest in programming and began studying it independently in 2022. I started with an Introduction to Programming course on the MOOC.fi platform, where I learned the basics of Python. To further deepen my knowledge, I joined the Digi-Duunipaja program at Tredu in March 2023, which helped enhance my ICT skills. In October 2023, I enrolled in a course at Sasky to learn C#. I'm also passionate about web development and have been expanding my skills in HTML, CSS, and JavaScript.

I am a fast learner who thrives both in team settings and when working independently. I am sociable and easily connect with others.

## Work Experience

02.2018 - 12.2021	<b>Portuguese teacher</b> School F. A. Cunha/Paraíba state government <ul style="list-style-type: none"><li>Teaching portuguese language to highschool students.</li></ul>
